Re: North of South Mixed-Use Development

Dear Commissioners:

On behalf of the Fletcher Place Neighborhood Association Board of Directors, I am writing this letter in support of the proposed North of South mixed-use development. This unique infill project as currently contemplated will be transformational to the southeast quadrant of the city and will provide a much needed and anticipated connection between the Fletcher Place neighborhood and the central business district. Additionally, the project provides additional amenities and services within walking distance to the homeowners represented by our board.

Fletcher Place Neighborhood Association Board of Directors supports this request for economic development and respectfully requests your approval.

Sincerely,

Jeff Miller
President
Fletcher Place Neighborhood Association
